Muhammad Dhyaul Atha

Informatics Engineering Student | Web Development Enthusiast |
Beutong, Nanggroe Aceh Darussalam, Indonesia

Ringkasan

I am an Informatics Engineering student with a strong passion for web development, programming, and open-source technologies. I have hands-on experience building projects using HTML, CSS, JavaScript, React.js, Node.js, and MySQL, and I am constantly exploring new tools and frameworks to expand my expertise.

I thrive in both independent and collaborative environments, with a focus on problem-solving, project management, and effective communication. I believe technology is more than just a tool—it's a bridge to create meaningful impact.

I am currently open to collaborations, internships, and opportunities in technology and software development.
